

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class TMPro_InstructionOverlay["TMPro.Examples.TMPro_InstructionOverlay"]
    TMPro_InstructionOverlay --|> MonoBehaviour
```

The diagram illustrates a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a rectangle divided into three horizontal sections. The top section contains the text 'MonoBehaviour', while the two sections below are empty. Below this is the 'TMPro.Examples.TMPro_InstructionOverlay' class, represented by a rectangle divided into three horizontal sections. The top section contains the text 'TMPro.Examples.TMPro_InstructionOverlay', the middle section contains '+ AnchorPosition', and the bottom section is empty. A blue arrow with an open triangular head points from the top of the 'TMPro.Examples.TMPro_InstructionOverlay' class to the bottom of the 'MonoBehaviour' class, indicating that 'TMPro.Examples.TMPro_InstructionOverlay' inherits from 'MonoBehaviour'.

TMPro.Examples.TMPro
_InstructionOverlay
